

## Attending a Driving School in New York Delays Death

You're dead. Unless you're in a coma or lost a leg, car accidents definitely take something away from us. Failure of acquiring descent driving lessons from a [driving school in New York](#) adds to the more than twenty thousand road accidents in the said city. Here's why we should enroll in a [driving school in New York](#).

According to a report in January, one woman from Manhattan crashed her Lexus on a tree killing two of her passengers. Luckily, she survived without life-threatening injuries. The woman was just 19. At a young age, she will face the court instead of being informed as to why traffic laws vary in each state in a [driving school in New York](#). So what is it that drivers need to think? There are few.

Find a [driving school in New York](#). But don't settle for less. Take that defensive driving that will help you survive New York roads and preserve the life of pedestrians. Attending classes in a [driving school in New York](#) will help you identify good roads, good speed and good mentoring. Stubbornness and arrogance killed millions of New Yorkers. It's not cool to join their party.

Saying don't drink if you will drive is overrated, worse, when you drink and drive during the nighttime. You ought to know that by now. So be merciful to your one million dollar face. Instead being a daredevil because liquor said so, here's a better way to get that feeling. Find yourself a good race car school and enroll. Drive 400 mph. Crazy? No. You are driving fast, you are aware of the track, you are careful, and you are sober. At the end of the day, you will learn that driving is all about safety, speed, maneuvering, and reaction to emergency situations. The next time you will drive the busy streets, you will appreciate 50 mph.

With regards to trucks, if you can't see the side mirror of the truck, Mr. Truck Driver can't see you too. Let this be a lesson. Even if it's a brute-looking monster truck, it is fragile. It's fragility can and will hurt you if you are not careful. Get your distance and make sure truck drivers notice your car.

Be more acquainted with your car. This entails knowing your car very wheel. This includes observing how long your car stops when braking, distinguishing your car's movements at different speed, recognizing your car's deficiencies, tune ups and overhauls, etc. Rephrasing a quote, if you know thy car and thy self, you don't need to fear the results.

Lastly, look at what's happening not just around but beyond you. If you can see the situations behind the car behind you or in front of the car in front of you, then you are good to go. And don't forget your sides.

Be familiar with car crash and car safety issues. It's up to us if we want to go home safe or drive our one way ticket.
